John Baldessari says: PLEASE... sit on this chair! Commissioned by onestar press and designed by Sébastien de Ganay, the goal was to produce a lounge chair that could be produced anywhere: cut four pieces out of simple plywood on a local CNC machine - in order to make its carbon trace as low as possible - and assemble it in a minute with no screws or glue, the 4 PIECE CHAIR was born and John Baldessari customized it.

Choose your 5 mm felt seat pad from 3 different vibrant colors: yellow, red or blue.
